Garbage Disposal Splash Guards

Description

DLYY Garbage disposal splash guards keep the food and debris from splashing up, protect operator from garbage debris and drops splashing when garbage disposal is working.

Advantage

1.Snap design: firmly stuck at the entrance of the garbage disposal, no shaking and leakage

2.Unique upgraded splash guard design: this upgraded product has the drain aide in a completely closed state when there is no gravity, this situation can better prevent food and water from splashing upward while preventing odor, but when water or garbage gravity is generated, the splash guard can easily open and let garbage enter the disposal smoothly.

3.Easy to Use: Removable and clean, easy to replace old, damaged or misplaced splash guards, easy access to the processing hopper, no installation tools, no dis-assembly.

Technical Specification

Material: High quality NBR/SI/OEM

Color: Black

Certification

ISO9001, ROHS,REACH
